# Virginia Cooperative Extension

A Guide to Successful Pruning
Evergreen Tree Pruning Calendar

Susan C. French, Extension Technician
Bonnie Lee Appleton, Extension Horticulturist

Comments:
1.) Seldom needs pruning - remove multiple leaders, dead and broken branches
2.) Don't prune into old wood having no leaves or needles
3.) Prune during growing season to make more compact or dense
4.) To avoid reducing berry production, don't prune during bloom period
5.) Prune to prevent oak wilt infection
6.) Prune to remove cankers
7.) Flower buds set on previous season (old) wood; winter pruning will reduce spring flowering

Legend:
- ✿ = Best time to prune
- █ = Do not prune except to correct damage, hazards or structural defects
- Where no ✿ or █ timing is not critical

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Comments
