File name: tomato-virus.jpg
File type: image/jpeg
File size: 41 KB
Dimensions: 400 by 260 pixels

Data entered in this box is automatically inserted in the IMG tag when you enter the photo into a story.

Alternative Text

tomato virus

[Learn how to describe the purpose of the image.](#)

Leave empty if the image is purely decorative.

This is for internal reference only - when you want to search for a photo that was used in the past. The search looks in this for a match to what you are looking for. Many times left blank.

Title

tomato virus

Caption

``Thrips cause tomato spotted wilt virus on tomatoes``

Enter the caption that describes what the photo is. Be sure to use the `` tags to make the caption italic. This is automatically entered when you insert a photo into a story. Leave blank if no caption.

Description

University of Florida

This is where the photo came from and is used for internal reference only. DO NOT place "by author" here because if using the photo later in a future story, no one know who the author is.

File URL:

<https://fairfaxgardening.org/wp-content/ur>

This is the location or URL address for the photo once it is in Wordpress
